Re: Profile of SI Fintech Pvt Ltd.

Dear Sir/Madam,

Please find below our profile and details about our service offering – Namely cost-effective Managed Printing Services at various locations in India.

SI Fintech Pvt. Ltd., is an authorized HP sales & service partner for printers/scanners/plotters/copiers/consumables, and has been providing ValuPrint (Managed Printing Services– an opportunity to reduce cost, headaches, and electricity consumption) across the country since 1998.

It was among the pioneers who started the managed printing industry in India. We provide services to our customers across the country in locations ranging from Tezpur in the North East to Jamnagar in the West, From Pathankot in the North to Kanyakumari in the South. We provide services to our customers in very tough, remote and demanding locations like Mines (Ghatotand, Noamundi, etc), Plant cities (Bhadravati, Burnpur, etc).

We have introduced Unique Ideas to this industry like:

Try & Buy: A concept of trial order where you try the full scope of services for a 3-6 month period on a commercial basis before deciding on a long term engagement.

Order for Services instead of Product. The customer does not buy a machine or a product, he buys our services for a specific duration. This helps in ensuring flexibility for the customer where the customer can change his equipment as his requirement changes due to change in team size / business requirement.

Business Continuity Planning: Most vendors give SLAs, response times, Turn Around Time and Uptime %age. We help ensure Business Continuity by planning standby services as per business criticality. During the Pandemic we have helped multiple Pharmaceutical manufacturers keep the services operational across the country.

Pre-Paid Printing: We introduced this in 1997 for colleges like IIM-Calcutta, Symbiosis, XLRI so that students could take prints anytime without standing in queue.

Proactive Consultative advice: The customer is given advise on change in policies and equipment based on usage pattern, which would reduce total costs.

Single point Source: We provide support for Dot-Matrix, Label/Thermal, Laser, Ink, Plotter and Pagewide printers under a single roof, an industry first.

ValuPrint Benefits

- Reduced overall Cost
- Reduced Capital Expenditure.
- Reduced Headaches, Space and Power Consumption
- Single point support for all type of printers.
- Support across the country.
- Support designed to fit each customer's requirement, 24/7 or normal office hours or as required.
